Agenda

1. Introductions

2. Community Updates

Roundtable discussion of news, local projects, and planning/design challenges

3. NCDOT Vulnerable Road User Safety Assessment

Curtis Bridges, CRTPO

The NCDOT Transportation Mobility and Safety Division (TMSD) initiated their Vulnerable Road User (VRU) Safety Assessment in 2022, including robust analysis of pedestrian and bicycle crash data. NCDOT is engaging with all MPOs and RPOs in North Carolina to share findings from data analysis, and to better understand the regional conditions contributing to bicycle and pedestrian crashes resulting in serious injury and death on roadways to inform the VRU Safety Assessment.
